

## Sarah Raven Press Release

### Summer 2021 at Sarah Raven

The new Summer 2021 Sarah Raven catalogue is out now (please find enclosed).

Fill your pots, beds and allotments or patio with as many flowers as you can, to enjoy wonderful colour and scent all summer long.

Check out some of our highlights from the Summer 2021 range:

#### New Handpicked Perennials for Superb Borders

[Agapanthus 'Charlotte'](#)

An Agapanthus small enough for a pot. It's bountiful with lots of fat, bright and vivid blue heads.

[Kniphofia rufa 'Rasta'](#)

This graceful poker has slender evergreen grassy leaves and unusual pendulous tuber flowers; coral red in bud, opening to zingy lime green.

[Salvia guaranitica 'Amante'](#)

Like jewels growing on a stem, this new addition to the salvia brigade is set to become just as popular as 'Amistad' and 'Love and Wishes'.

#### Brilliant Container Plants

[Blue and Silver Pot Collection](#)

A stunning collection that works in one pot or split into individual pots and grouped all together for beautiful colour.

#### Stunning New Sweet Peas

[Towering Teepees Sweet Pea Collection](#)

For rich and brilliant flowers with the best scent. Marvellous as individuals and even better growing together on a clutch of teepees or frames.
